PERSONAL PROFILE

Detail-oriented Software Engineering student at Centennial College with hands-on experience in full-stack web development, Java, C#, and SQL database design. Strong analytical problem-solver adept at writing clean code, troubleshooting software issues, and collaborating in Agile environments. Motivated to deliver scalable software solutions and drive project efficiency.

SUMMARY OF QUALIFICATIONS

- Experienced using Git and GitHub for source code management, team collaboration, and version control.
- Excellent interpersonal, team communication, and technical problem-solving skills developed through academic and professional environments.
- Proficient in core software development languages including Java, C#, HTML5, CSS3, JavaScript, and SQL.

EDUCATION

Software Engineering Technology (Advanced Diploma)
Centennial College, Toronto, Ontario, Canada. September 2025 – Present

Studying at Centennial College equipped me with practical skills in software architecture, team collaboration, and Agile methodologies. I co-designed a full-stack inventory portal within a 4-member Agile team, delivering the functional platform 5 days ahead of schedule with zero critical bugs during showcase.

Relevant Courses Completed:

- Employment Skill
- IT Project Managerment
- Programming 1, 2, 3 (Python, C#, Java)
- Software Development Project 1
- Software Testing & Quality
- UI-Smart Devices

Key Achievements:
My Portfolio
WatchTrack
GPA Summer 2026: 3.94
